Workers Per  
Billion of GSP

9.3%

High-Tech  
Share of Total  
Workforce

2,535

High-tech  
start ups

Missouri boasts a strong tech portfolio, outputting roughly \$13 billion in GDP from the information technology sector<sup>1</sup> and ranking in the top 15 states for share of high-tech sector workforce.<sup>2</sup>

The state is home to several Fortune 500 companies, including two major technology corporations and the Kansas City, MO area ranks in the top 15 metros with the most tech jobs per capita.<sup>3</sup>

The state also invests nearly \$2 billion in research and development funding to bolster future innovation.<sup>4</sup>

The Information Technology Council (ITI) is an international trade association and the premier global advocate for technology, representing the world's most innovative companies. For more than 100 years, ITI's members have been creating new technologies that have become a foundation for the U.S. economy and society, creating jobs and making the U.S. more innovative and competitive. The tech industry supports policies that complement these efforts by helping to increase opportunity, protect consumer privacy, make networks and devices safer, and protect our environment for future generations.
